

Board of Directors OPEN Meeting

Community Center – Hibiscus Room – 32805 N. Occidental Ave., San Tan Valley, AZ 85142

Thursday, May 27, 2021 – 6:30 pm

Pool Heater

Received request from a few homeowners for the Board to review the current pool heating months of October 1 – April 1 to extend further.

According to studies, the ideal pool temperature ranges between 78 – 82 degrees. Typically temperatures must remain between 80 degrees/ daytime and 60 degrees or above/ overnight to keep pool water at 80 degrees.

For the San Tan Valley region in April:

- Daily high temperatures *increase* by 8°F, from 80°F to 88°F, rarely falling below 69°F or exceeding 97°F.
- Daily low temperatures *increase* by 7°F, from 52°F to 59°F, rarely falling below 44°F or exceeding 66°F.

Recommend extending the pool heater season to October 1 – April 30 yearly. Turning heaters off May 1~~5~~.
